Mexico Child Link

- The Mexico Child Link Trust is a registered charity, founded in 1992 in response to the needs of abandoned children with learning disability. It is governed by a group of nine trustees from Northern Ireland.
- We work in partnership with Fundación Trébol, a Mexican charitable foundation.
- We support a project for abandoned children with learning disabilities, near the town of Atlixco, Mexico. The children live on a small farm in 2 adobe houses where they are cared for in a small group setting. The farm, based upon sustainable agriculture, provides a degree of self sufficiency for the project and allows the children to learn useful skills.
- We also support training programmes for children with learning disabilities in institutions in the Puebla area of Mexico. We have recently established a successful carpentry workshop in Atlixco as well as an advice and information centre in Puebla City for parents and professionals.
- If you are interested in finding out more about our work, please contact us at the address or telephone number overleaf.
